

## A Snapshot of Remote Learning in Grade 6

This is the last snapshot of 'Remote Learning' and Level 6 is sharing. During remote learning, the students in Grade 6 have been learning about 'Natural Disasters', as part of their Inquiry Based Learning. Some of the learning activities have been creating their own first aid kits, making a volcano and writing an information report about a natural disaster.

How many people died due to the Spanish Influenza?

How much can a tsunami destroy?

Is a death of a star or the sun a natural disaster?

What are the worst floods on record?

How big are Avalanches and what causes them?

What was the biggest tornado ever?

Here are some of our wondering questions about Natural Disasters

What causes an Avalanche?

The students in Grade 6 enjoyed a wide range of activities during remote learning.
