

DR SARAH PEARCE

Deputy Director

CSIRO ASTRONOMY and Space Science

Rotary
Club of Kalamunda

The Square Kilometre Array Radio telescope -or SKA will be the worlds largest telescope. Being built in Australia & South Africa it's one of the biggest scientific projects of its kind.

It is designed to answer various questions in physics, astronomy and cosmology in order for us to understand the origins and workings of the universe better and to deliver benefits to society.

Kalamunda Rotary are thrilled to be hosting Dr Pearce for this exclusive event.

*March 28th 6.30-8.30PM \$20.00
Finger food
Lesmurdie Club*
