

MOIRA

Allied Health

MOIRA's Occupational Therapy service delivers a person-centred practice, using an evidence-based approach by a compassionate and experienced team dedicated to enhancing the potential for people to live independent and fulfilling lives and create their own stories.

Our Occupational Therapy Service:

Starting with an initial assessment to understand what matters most to the participant, we deliver in-person assessments to understand their needs and aspirations before developing an individualised treatment plan with clear and agreed goals.

Services We Offer:

- OT services for children, young people and adults
- In-home, community-based therapy or telehealth
- NDIS functional capacity assessments and reports
- Targeted OT assessments to investigate areas of concern
- Assistive technology assessments for specialised equipment
- Goal-focused assessments and home programs
- School-based therapy and staff training
- Parent and child coaching
- Education, presentations and workshops

Where We Currently Service:

Services are currently available in within the Bayside, South, South-East and Eastern Metro Melbourne areas.
