Dear Santa clause,

I would certainly be a friendly and kind extension to your amazing group of reindeer friends.

I would be a well behaved, friendly, caring reindeer because i, could lead the front of the sleigh and make it faster and more fun. I also cannot have sugar so I won't steal the candy and even if I was allowed sugar i would still not steal anything. Also I love to help you in any adventure and I would risk my life to save you.

I want to help you with endless adventures and tough challenges and plus I might make the sleigh faster wouldn't that be great! Santa. Also I am brave so I can protect you and the reindeer like dasher did.

I think my special name should be galaxy because I can navigate the galaxy easily.

My Job should be directing and navigating
where I to go so you don't miss anyone
or go the wrong way! that would be
terrible if that happened.

Moon
