

SUN PROTECTION POLICY 2025

Help for non-English speakers

If you need help to understand the information in this policy, please contact the office in person or via the school email stkildapark.ps@education.vic.gov.au

PURPOSE

The purpose of this policy is to support sun protection behaviours at St. Kilda Park Primary School to minimise the risk of health problems from sun overexposure, including skin cancer.

This policy provides guidelines to:

- support staff and students to use a combination of sun protection measures when UV index levels are 3 or above (generally mid-August to the end of April in Victoria)
- ensure that there are outdoor environments that provide adequate shade for students and staff
- ensure students are encouraged and supported to develop independent sun protection skills to help them to be responsible for their own protection
- support our school's strategies to meet its duty of care and occupational health and safety obligations to minimise harmful UV exposure and associated harm for students and staff.

SCOPE

This policy applies to all school activities on and off-site, including camps and excursions. It is applicable to all students and staff.

POLICY

Overexposure to the sun's ultraviolet (UV) radiation can cause health problems including sunburn, damage to skin and eyes, and an increased risk of skin cancer. UV damage accumulated during childhood and adolescence is strongly associated with an increased risk of skin cancer later in life.

UV radiation:

- cannot be seen or felt
- can be reflected off surfaces such as buildings, asphalt, concrete, water, sand and snow
- can pass through light clouds
- varies in intensity across the day and the year (highest from mid-August to the end of April in Victoria, which covers most of the school year)
- peaks during school hours.

Sun safety is a shared responsibility and staff, parents and students are encouraged to implement a combination of sun protection measures whenever UV levels reach 3 or above. Information about the daily local sun protection times is available via the free SunSmart Global UV app, or at sunsmart.com.au, or at the Bureau of Meteorology at bom.gov.au.

St. Kilda Park Primary School has the following measures in place for all outdoor activities during the daily sun protection times to help reduce the risk of over-exposure to UV radiation for staff and students.

Shade

St. Kilda Park Primary School provides sufficient options for shelter and trees to provide shade on school grounds, particularly in places such as:

- outdoor lesson areas including P.E and Kitchen/ Garden lessons
- popular play areas including the Quadrangle and Quiet Area
- assembly areas

Students are encouraged to use available areas of shade when outdoors during peak sun protection times, particularly if they do not have appropriate hats or outdoor clothing. The school has a 'no hat-no play' regulation in summer months and students must play in the Quadrangle area at break times.

When building works or grounds maintenance is conducted at St. Kilda Park Primary School that may impact on the level of shade available to staff and students, a review of the shaded areas available will be conducted and further shading installed as appropriate.

Sun protective uniform/clothing

St. Kilda Park Primary School recommends that from mid-August to end of April, students come to school wearing sun-protective clothing such as:

- loose, cool, densely woven fabric
- tops with elbow length or long sleeves
- longer style shorts, dresses and skirts
- rash vests or t-shirts for outdoor swimming activities including school camp and sports Gala Days

Hats

From September 1st to 30 April, all students **must** wear a sun protective hat that shades the face, neck and ears for all outdoor activities. Hats may also be worn for all outdoor activities outside of the September to April period, by parent or student choice.

Baseball or peaked caps and sun visors are not considered a suitable alternative, as they do not protect the ears, cheeks or neck.

Students who are not wearing appropriate protective clothing or hats will be asked to play in the shaded area of the quadrangle.

Sunscreen

St. Kilda Park Primary School encourages all staff and students to apply SPF50 or SPF50+ broad-spectrum, water-resistant sunscreen daily whenever UV levels reach 3 and above. Sunscreen should be applied at least 20 minutes before going outdoors and reapplied every 2 hours (or more frequently if sweating or swimming).

St. Kilda Park Primary School supplies SPF50 or SPF50+ broad-spectrum sunscreen water-resistant sunscreen for staff and students to use. These sunscreens are allocated to all classrooms for all staff and students, so it is readily accessible.

St. Kilda Park Primary School has sunscreen available in all classrooms and in all first aid bags for excursions, gala days and outdoor activities. Teachers enforce the 'no hat- no outdoor play' rule from September 1st – 30th April each year.

Staff and students who may suffer from skin reactions from certain types of sunscreen are encouraged to contact the First Aid Officer to implement a plan to reduce the risk of a sunscreen reaction at school, such as families sending their child to school with a suitable alternative sunscreen. Only students with a medical plan due to severe allergies and very sensitive skin are on a daily alert from the First Aid officer who supervises the application of the sunscreen supplied by the parent/carer at the

Sunscreen that is supplied by the school is stored below 30 degrees and the expiry date monitored.

Sunglasses

St. Kilda Park primary does not encourage students to wear sunglasses for outdoor activities due to safety reasons when playing on climbing equipment and in P.E lessons. If students do wear sunglasses for outdoor activities, they must wear close-fitting, wrap-around sunglasses that meet the Australian Standard 1067 (Sunglasses: Category 2, 3 or 4) and cover as much of the eye area as possible.

Curriculum

Students at our school are encouraged to make healthy choices. They are supported to understand effects of sun exposure and are encouraged to be involved in initiatives to promote and model sun protection measures to the whole school. St. Kilda Park Primary School will address sun protection and UV safety education as part of Health & Physical Education lessons.

Staff role-modelling and OHS

Staff are encouraged to access resources, tools, and professional learning to enhance their knowledge and capacity to promote sun smart behaviour across the school community. Staff may practice and role-model these behaviours even when the UV is below 3, particularly if they spend extended periods of time outdoors all year round.

UV radiation exposure is considered as part of our school's risk management and assessment for all outdoor events and activities, i.e. UV radiation protection strategies are included in school camp activities, excursions, sports days and interschool sports events.

Families and visitors

Families and visitors participating in and attending outdoor school activities are encouraged to:

- wear a sun-protective hat, covering clothing and, if practical, sunglasses;
- apply SPF50 or SPF50+ broad-spectrum, water-resistant sunscreen; and
- seek shade whenever possible when outdoors.

Community engagement

Sun protection behaviour is regularly reinforced and promoted to the whole school community through newsletters, school website/intranet, staff and parent meetings, school assemblies, student and teacher activities and at student enrolment/new staff orientation.

Families, students and staff are provided with information, ideas and practical strategies to support UV safety at school and at home. St. Kilda Park Primary School may provide information through communication strategies including the school newsletter, noticeboards, school website and school assemblies.

COMMUNICATION

This policy will be communicated to our school community in the following ways:

- Available publicly on our school's website (or insert other online parent/carer/student communication method)
- Included in staff induction processes
- Included in staff handbook/manual
- Included in transition and enrolment packs
- Discussed at parent information nights/sessions
- Reminders in our school newsletter
- Hard copy available from school administration upon request.
