The Club Aggregate is a series of 6 club races held over a number of Sundays throughout the swimming season.

Please read important information below (particularly the section under squad/stream event allocation) to avoid your child missing out on competing or to avoid them missing out on points.

Aggregates are fantastic, no matter what level your swimmer is... so please come along and get involved!

SQUAD/STREAM EVENT ALLOCATION

Please ONLY enter your child in the events below as per the squad/stream she/he is assigned to. Entering your child outside of these events will result in her/him being unable to swim and/or no points being recorded. You can also only enter one distance per stroke if your squad has the option of different distances. For example, if your child's squad has the option of either 50 Freestyle or 100m Freestyle they can do either but NOT both. Swimmers entered outside of the two above rules will result in no swims or no points. If unsure, please check the correct events with your swimmer's coach.
