

Olive McFarlane

Guyra Fires

12/11/19

This week is very smoky.

The Bush fires are spreading fast because of the wind.

I am feeling worried but very calm and safe because it is not close to my house. Plus I am at my school and with my community.

Luckily, I am being kept safe with my family, friends, also my teachers.

When I heard this was one of my safest places to be I felt relieved.

I hope the bush fires stop soon so my friends and I are safe together.

Hopefully, my house is safe as well as my friends houses.

My family plan for evacuation is to hook the caravan on the car and drive away.

My personal plan is go away or come to school. I now believe there is nothing to worry about.
