3. Background

The following section explains how the survey was conducted, how results were scored and how to best interpret the report.

3.1 Survey Methodology

The survey contained two components: School Strategies and Student Engagement.

St Pius X College management provided responses to the 'School Strategies' component while students were asked to provide responses to the 'Student Engagement' component. (Please refer to the Comprehensive Report for the 'School Strategies' component.)

Information regarding the survey was distributed to students at St Pius X College detailing how to complete the survey online through MYP Corporation's secure website. To encourage students to provide honest feedback, this communication outlined the confidentiality of individual responses. In addition, to encourage a high level of participation, regular email reminders were forwarded to students until they completed the survey or until the survey closing date.

The SRS for St Pius X College contained 35 standard statements and St Pius X College elected to include 10 additional custom statements. All statements had 6 possible responses which were scored as follows:

- Strongly agree (5)
- Agree (4)
- Can't decide (3)
- Disagree (2)
- Strongly disagree (1)
- Don't know (-)

The 'Don't know' option enabled students to opt out of responding to a statement that had no applicability to them. 'Don't know' responses were not included in the calculation of summary results.

The key areas in which student feedback was sought include:

- Values + Culture
- Curriculum
- Teaching
- Homework
- Student Transition
- General
- Leadership + Direction
- Co-curriculum
- Environment
- Reporting
- Parent Engagement
- School Communication
- Learning
- Resources + Facilities
- Behaviour
- Student Engagement

3.2 Report

The report comprises 2 sections:

Section 1 - Student Demographics

Section 2 - Responses by School Segmentation and Key Area

Throughout the report, results have been colour coded.

4 - 5	An excellent outcome that indicates a real commitment on behalf of the organisation to address this issue in a tangible and relevant manner. Maintain vigilance and continue to adapt to the changing nature of the school environment.
3 - 4	A fair to good score that reflects a level of satisfaction on this issue. However, it falls short of an 'educator of choice' outcome. Continual and increased focus on this issue is recommended.
2 - 3	A poor result that suggests a core level of underlying dissatisfaction on this issue. Investigation and corrective action required.
1 - 2	There are significant issues for concern. This score reflects an unhealthy disconnect on this issue between the current situation and the needs and/or expectations of students. Major corrective action required.
+	A score that is equal to or higher than the 'Average Score'.
-	A score that is lower than the 'Average Score'.

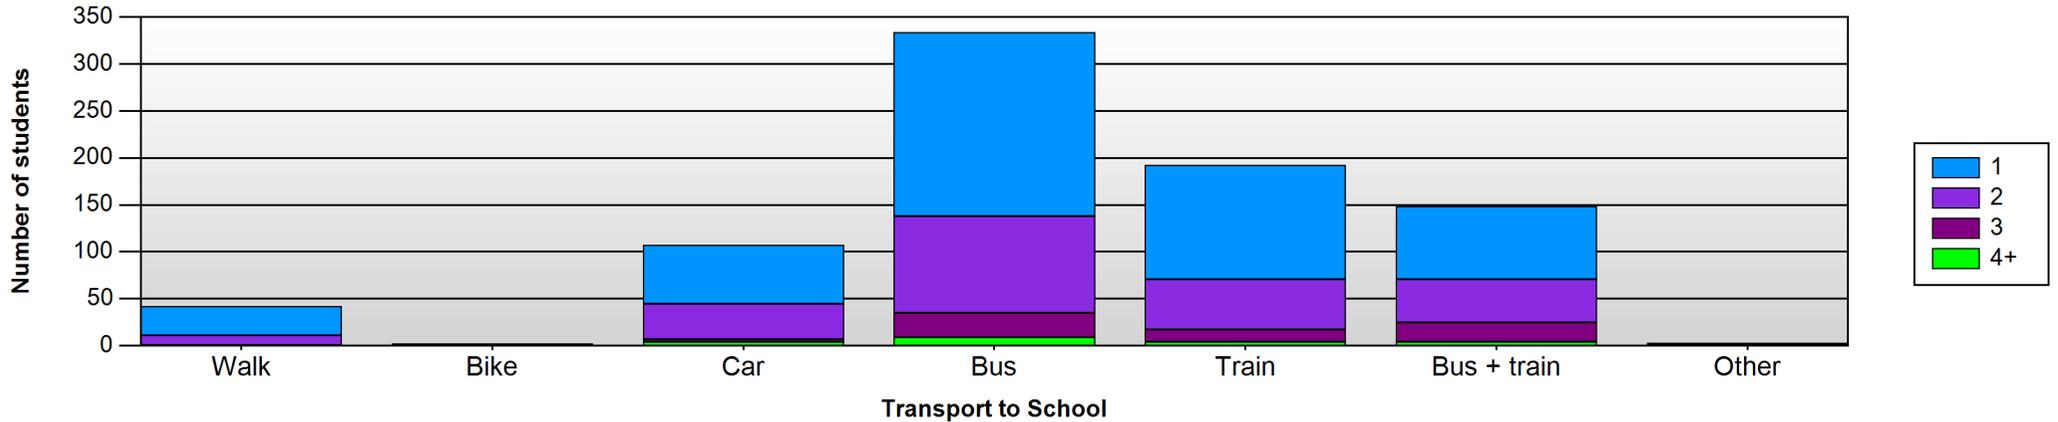

Note:

Variance is the percentage difference between the average score recorded for a survey segment or statement and the overall average (rounded to a whole number).
