

**WHEELERS HILL PRIMARY SCHOOL
OUT OF SCHOOL HOURS CARE**

Furniture & Equipment Safety Policy

Under the Education and Care Services National Law and Regulations we have a responsibility to protect the health and safety of children enrolled at our Out of Schools Hours Care (OSHC) Program. Whilst risk management is included in our health and safety policies, we understand our responsibility in providing a safe environment for all children and the need to check all equipment and furniture regularly to minimise risks to all those entering the Program.

NATIONAL QUALITY STANDARD (NQS)

QUALITY AREA 2: CHILDREN'S HEALTH AND SAFETY		
2.2	Safety	Each child is protected.
2.2.1	Supervision	At all times, reasonable precautions and adequate supervision ensure children are protected from harm and hazard.

QUALITY AREA 3: PHYSICAL ENVIRONMENT		
3.1.1	Fit for Purpose	Outdoor and indoor spaces, buildings, fixtures and fittings are suitable for their purpose, including supporting the access of every child.
3.1.2	Upkeep	Premises, furniture and equipment are safe, clean and well maintained.

EDUCATION AND CARE SERVICES NATIONAL REGULATIONS	
103	Premises, furniture and equipment to be safe, clean and in good repair
105	Furniture, materials and equipment
168	Education and care service must have policies and procedures
170	Policies and procedures must be followed
174	Time to notify certain circumstances to the Regulatory Authority
176	Time to notify certain information to Regulatory Authority

PURPOSE

Management and educators have a responsibility and duty of care to ensure the building, furniture, grounds, and equipment are safe and hygienic. We aim to ensure that all furniture and equipment at the OSHC Program adheres to recognised safety standards and is age appropriate for the children.

SCOPE

This policy applies to management, the approved provider, nominated supervisor, students, families and visitors (including contractors) of the OSHC Program.

IMPLEMENTATION

Our Program understands the importance of children experiencing and learning about risk through safe and creative play. The provision of safe environments for children is essential to prevent injury and enable them to explore and develop new skills. Our OSHC Program will only use furniture and equipment that has been made in accordance with Australian design standards.

MANAGEMENT AND NOMINATED SUPERVISOR/RESPONSIBLE PERSON WILL ENSURE:

- a proactive process of risk management is implemented, and clear processes are in place for the identification of hazards, risk minimisation and other control measures
- regular routine visual inspections are made to identify obvious hazards in surfacing, fixed and mobile equipment, moving parts, playgrounds and sandpits
- educators are aware of their responsibility to identify hazards and potential risks of all equipment and furniture and abide by Work Health and Safety requirements
- mandatory Australian Safety Standards are always adhered to when purchasing new equipment and furniture
- the equipment and furniture used in providing education and care at the Program is safe, clean and in good repair
- to adhere to the Education and Care Services National Law and Regulations and licensing requirements that relate to the safety of children at the Program
- there is sufficient furniture and developmentally appropriate equipment so each child can take part in the educational program depending on their interests, ages and abilities
- educators are aware of appropriate instructions for use and supervision for all equipment and furniture
- furniture in the Program is securely built so it will not collapse, is easy to clean, and non-toxic.
- entrapment hazards are identified; it is easy for small fingers and limbs to get caught in gaps. Head and upper body entrapments can cause death by asphyxiation. (Be aware that fingers can get caught in holes or openings between 5-12mm, limbs in gaps between 30-50mm and heads in gaps over 85mm.)

- furniture and equipment do not contain any lead. This is most likely to occur with second-hand furniture
- the Regulatory Authority is notified of any serious incident involving serious injury or trauma to a child within 24 hours.

EDUCATORS WILL:

- provide effective supervision of children at all times to minimise the risk of accidents and injuries that could result from the furniture and equipment within the learning indoor and outdoor learning environment
- regularly check furniture and equipment for stability and wear and tear
- record any furniture or equipment that needs maintenance in the *School maintenance Book* and ensure this is reported to Nominated Supervisor
- carefully consider all aspects regarding the use of furniture and equipment and how it suits the age and stage of the children’s development
- ensure the furnishings and equipment within the program support and stimulate children’s leisure and development
- Reflect on common accidents and incidents in the learning environment and implement an action plan to ensure the safety of children and minimise accidents at the OSHC Program.
- provide a safe physical environment that allows children to play safely
- remain up to date with health and safety changes within the early childhood sector
